MEMORANDUM FOR: See Distribution

STATFROM : 
Chief, Legislation Division, OLCSUBJECT : H.R. 137 - Submission of Research Proposals
to the Congress Prior to the Expenditure
of Federal Funds

1. The wording of Section 1 of this proposed legislation is broad enough to include our Agency. The potential security and outside micro-management implications of this bill are obvious. The bill is being provided mainly for your information at this time, since it has been introduced in at least the last three congresses and there is as yet no indication that it will begin to move this time. The bill does have a surface attractiveness, however, and given Congressional determination to reduce wasteful Federal spending, its chances this year should not be totally discounted.

2. Components particularly interested in outside research may, therefore, wish to comment on the bill. Any such remarks should be addressed to me.
